

- I can make groups of 1, 2 and 3 objects
- I can subitise groups of 1, 2 and 3
- I can say which set has more/less/the same
- I know some ways to make the numbers 1, 2 and 3.
- I can recognise and describe circles and triangles

Key Vocabulary:

Subitise—automatically recognise a quantity without counting

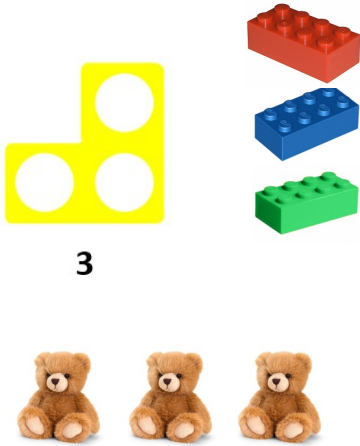

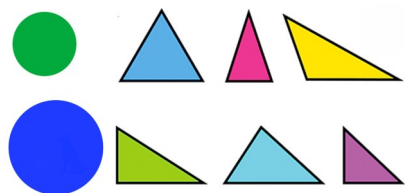

Set— a group of objects or pictures

Compare— see what is the same or what is different

More— where the quantity is greater

Less— where the quantity is fewer

Sides— a line that connects 2 points on a 2D shape

Representing 1,2,3	Comparing 1,2,3	Composition of 1,2,3	Circles and Triangles
<p>Can you make groups of up to 3 objects? Count carefully by touching each object as you count. Can you match the correct numeral to the group of objects? Can you subitise up to 3 objects?</p>  <p style="text-align: center;">3</p>	<p>Can you count forwards from 1 to 3? Can you count backwards from 3 to 1? Which is the biggest/smallest number? Can you compare different sets of objects to see which has more/less/the same number?</p> <div style="border: 1px solid green; display: inline-block; padding: 2px; margin: 5px;"> 1 2 3 </div> <p>How many green buttons are in this set?</p>  <p>Which set has more / less /the same?</p>  <p>Try making your own more/less problems :)</p>	<p>Using objects... How many ways can you make 1? How many different ways can you make 2? How many different ways can you make 3?</p> <p>How many of each colour to make 3?</p> <p>3 = </p> <p>3 = </p> <p>3 = </p> <p>3 = </p>	<p>Can you find any circles?</p> <p>Can you find any triangles?</p>  <p>How do you know they are circles/triangles? What is special about each shape?</p> <p>How many sides do they have? Are the sides straight or curved?</p> <p>How many pointy corners do they have?</p> <p>Are these 2D or 3D shapes? How do you know?</p>
