

- I can make groups of 4 and 5 objects and subitise these numbers.
- I can say which number is 1 more or 1 less than a given number
- I can recognise and describe rectangles and squares.
- I can sequence an activity.

**Key Vocabulary:**

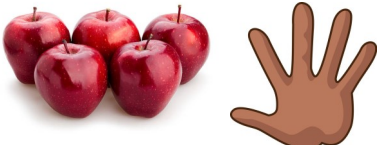

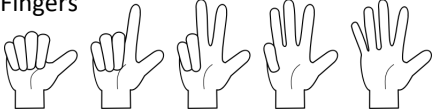

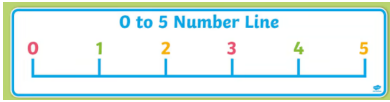

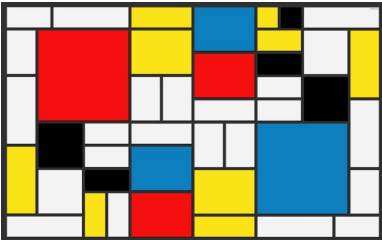

**Number line**— a tool we use in maths for counting forwards and backwards. The numbers are in order.

**Equal length**—the same length.

**Rectangle**— a 4 sided 2D shape.

**Square**— a special rectangle where all 4 sides are equal.

**Sequence**— placing events in order.

| Representing numbers 4 and 5  | One more or less   | Shapes with 4 sides  | Time  |
|---|--|--|---|
| <p>Can you represent these numbers with objects? E.g. count out 4 or 5 lego bricks?</p> <p>Can you subitise up to 5 objects?</p> <p><b>4</b> </p>  <p><b>5</b> </p>  | <p>Can you find 1 more or 1 less of a given number?</p> <p>Think about ways you can show one more or 1 less:</p> <p>Counters </p> <p>Fingers </p> <p>Numberline </p> | <p>Can you find a rectangle at home? </p> <p>Can you find a square at home? </p>  <p>How do you know they are rectangles / squares What is special about each shape?</p> <p>How many sides do they have? Are the sides straight or curved? How are rectangles and squares similar/different?</p> <p>How many pointy corners do they have?</p> <p>Are these 2D or 3D shapes? How do you know?</p> | <p>What activities do you do in the day time? What activities do you do at night time?</p>  <p>Talk about activities you do at home e.g. getting dressed or ready for bed, brushing your teeth, eating dinner.</p> <p>Talk about the sequence of one of the activities. What comes first, next, then, after, last?</p> <p>Can you talk about this sequence?</p>  |
