

Supporting Pupils with Medical Conditions Policy 2016-2019

Adopted by Symphony Learning Trust on	Spring 2016
Next Review Due	Spring 2019

This document is produced in conjunction with the Leicestershire Partnership Trusts. We would like to acknowledge input from professional bodies and services with Leicestershire County, City and Rutland. We would also draw your attention to the appendices listed on the Schools EIS for access and information relating to Individual Care Plans and specific medical needs/conditions. This document is revised in line with the current Department for Education 'Supporting pupils at School with medical conditions' 2014, which replaces the previous Managing medicines in Schools and early year's settings 2005.

LA Review Date: 03/08/2016

Medication Policy

The Board of Trustees and staff of each school in the Symphony Learning Trust wish to ensure that pupils with medical needs receive appropriate care and support at their school. Each Head teacher will accept responsibility for members of staff giving or supervising pupils taking prescribed medication during the school day. Where possible, pupils should be encouraged to self-administer under supervision, this should take account age of the child. It must be stressed that where prescription drugs are required these shall be administered by those members of staff that have volunteered unless medically trained staff are employed on site. It should not automatically be assumed that a qualified First Aider will fulfil this role.

- Staff will not give a prescribed/non prescribed medicine or care unless there is specific written consent from parents.
- An Individual Care Plan (ICP) should be drawn up for the pupil.
- A secondary check must be made prior to medication being taken / given.
- The school will not accept items of medication in unlabelled containers.

Procedures

- In the first instance, the Head teacher should be informed of an individual's diagnosis and prescription medication.
- An appropriate staff member/volunteer or carer will meet and discuss the issues with the parents/guardian of the pupil.
- The member of staff volunteering will be offered professional training and support in relation to the needs of the individual by a suitably competent person (this maybe by a qualified trained nurse).
- There will be regular review meetings scheduled to monitor the support required.

Responsibilities

Parents/Guardian Responsibility

- A comprehensive information guide specifically relating to the pupil's condition and medication must be recorded.
- Only reasonable quantities of medication should be supplied to the school (e.g., maximum 4 weeks at any one time)
- Where pupils travel on school transport with an escort, parents/guardians should ensure that the escort has a copy of written instructions relating to the pupil's medication.
- Notification of changes in prescription drug issued by the GP must be given directly to the school by parent/guardian.
- Parent/guardian to collect and restock medication from school at the start and end of every term in a secure labelled container as originally dispensed.
- Parent/Guardian to ensure the medication is in date for the duration of the term.

School Responsibility

- Medication will be kept in a known safe secure place (not necessarily locked away) and some drugs may require refrigeration.
- Where emergency medication is prescribed this must remain with/accessible to the pupil at all times. e.g. Epipen, Asthma inhalers
- Maintain and record dosage prescribed/administered.
- Identify if additional training needs are required for staff. Source and arrange training.
- Locate and record care plan for individual; identifying supporting staff.
- If a medical emergency develops activate the relevant procedures and call 999
- Each term a nominated member in school to check emergency medicines are in date and note the expiry date to avoid expired medication during the term. There needs to be a clear audit trail of this.
- The school should encourage parents/guardians to make a note of expiry dates of medication.

Please refer to each individual school's Administration of Medicines Policy for specific school arrangements.

General Practitioner / Consultant / Medical Professional Responsibility

Prescriptive labelled drugs must contain:

- Pupils name
- Name of medication
- Dosage
- Frequency of administration
- Date of dispensing
- Storage requirements (if important) i.e., refrigeration
- Expiry Date

Consent Form See Appendix A

No child under 16 should be given prescription or non-prescription medicines without their parent's written consent – except in exceptional circumstances where the medicine has been prescribed to the child without the knowledge of the parents. In such cases, every effort should be made to encourage the child or young person to involve their parents while respecting their right to confidentiality. Schools should set out the circumstances in which non-prescription medicines may be administered.

A child under 16 should never be given medicine containing aspirin unless prescribed by a medical professional.

Individual Care Plan

See Appendix B on schools EIS for further information on Individual Health Care Plans.

Appendix 1

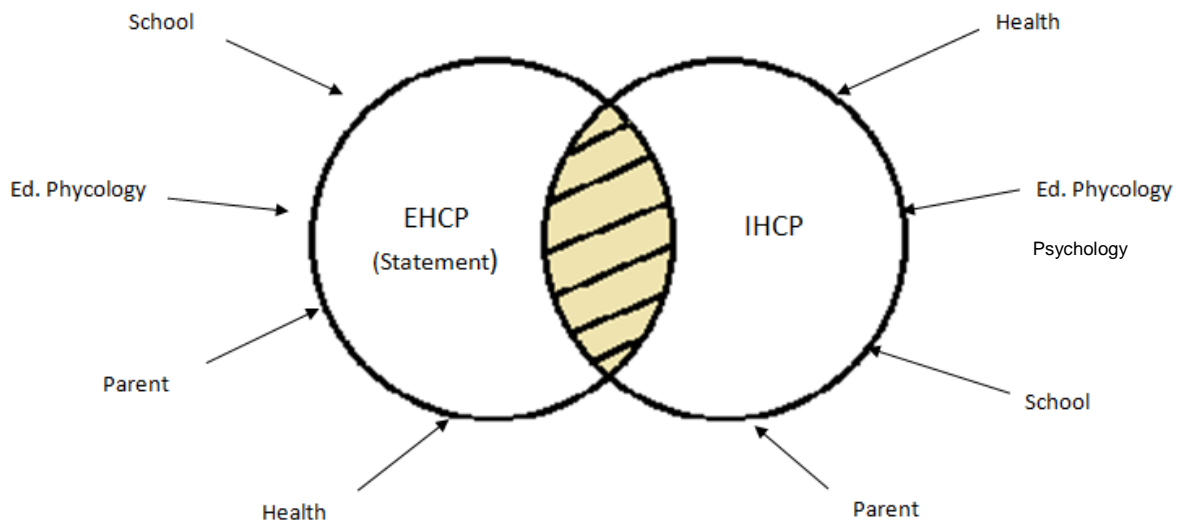

Information to support the completion of an Individual Health Care Plan (IHCP)

Specific information on individual pupil requirements. Written recorded plan will ensure that their needs are met whilst in school and any treatment needed to be administered by members of staff will be fully understood. Plan to be agreed by Head teacher and parents. THIS MUST BE FORMALLY RECORDED AND REVIEWED AT REGULAR INTERVALS. A template/proforma is available for download on the EIS system under 'A' Administration of medicines, see appendices.

Some children with medical conditions may have physical disabilities. Where this is the case governing bodies **MUST** comply with their duties under the Equality Act 2010. Some may have special educational needs (SEN) and may have an Education, Health and Care Plan which will bring together health and social care needs, as well their special educational provision.

Education, Health and Care Plan

EHCP
 “This is the new statement of educational needs and may incorporate the need for specialist medicines”.

IHCP
 “Individual health care plans – is direction for managing emergency or specialist medicines given”.

Appendix 2 - ADVICE ON MEDICAL CONDITIONS

The Community Paediatrician or Nurse on request can give advice regarding medical conditions to the school. Parents or guardians of children suffering from these conditions seeking general information should be advised to seek advice from their General Practitioner, the school health professionals or from the bodies detailed below. The following bodies can also supply leaflets regarding the conditions listed.

<p>Asthma at school – a guide for teachers</p> <p>National Asthma Campaign</p> <p>www.asthma.org.uk</p> <p>Asthma Helpline – Tel: 0800 121 6244</p>
